CORK HOME

<u>City Directories and History</u>: This historic Cork home was recorded in 1983 by the historic survey team members in Fairfield County as one of the few remaining 18th century houses. Little is know of the Cork family, but that they moved from Penn. and were heavily involved in the construction of Concord's original log church. It has also been reported by a long-term member of the congregation that Mr. John Cork later constructed the pews for the current church, however no documentation has been provided to support this data. Records suggest that Mr. Cork's farm consisted of about 500 acres. A nice farm sandwiched between the Mobley's Oakland Plantation and the vast holdings of the Patrick family at White Oak who are reported to have owned about 12,000 acres at the turn of the 20th century.

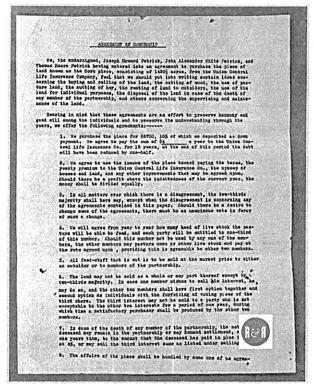

The house was constructed of large square logs. Much of the information provided for this dwelling came from Mr. M.T. Patrick and Jim Brice.

Porch and **R&R's Facebook** page. User comments always welcome – please post at the bottom of this page.

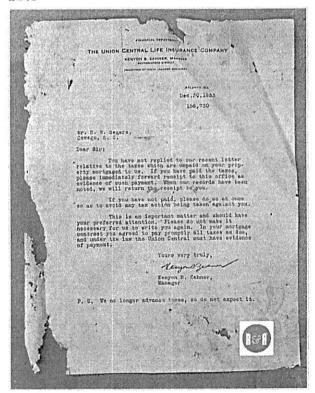

Please enjoy this structure and all those listed in Roots and Recall. But remember each is private property. So view them from a distance or from a public area such as the sidewalk or public road.

Do you have information to share and preserve? Family, school, church, or other older photos and stories are welcome. Send them digitally through the "Share Your Story" link, so they too might be posted on Roots and Recall.

Thanks!
