

Mrs J. G. Foster

Dear Cousin Florence! I have

sketched up the corners and distances you asked for on the above plat. It has been so dark during the days that I have not made the plat for the negroes. I will buy them when I come in again and explain every thing to them. I would wait a few days but fear you will get off before you get through with Mrs. Geology. I wish you a pleasant sojourn and safe return.

Truly yours
J. S. Styles
