

Dear Robert Hill,

I was searching the Internet for information of my maternal ancestor Joel Newman. I've found some information on him but so far his ancestry and wife have been unknown. Then I found a webpage prepared by Byron Hill and e-mailed him; he replied:

LUCY HILL; Lucy Hill; born Aug 24 1761 at Sussex Co., VA; married Joel Newman 1783.

It does appear to me from my files that this is quite possibly your connection. I suggest that you write to the following person whom I consider to be an expert on this line. He can provide you with more data. I have the parents and more generations back on Lucy Hill (which I believe you have already found on the website), but the contact below can probably give you information on this particular Lucy Hill's children, which would confirm for you no doubt, and questions you may have.

Here is the information I have about Joel Newman. I hope you can confirm that this is the same Joel who married Lucy Hill. If so, I'd also be interested in her ancestry. Thank you for your time. It is believed Joel was from Virginia.
