

## Local People Visit Purina Farm in Missouri

Residents of this area who are pictured above in the Ralston Purina Company offices in St. Louis were among approximately 300 farmers from this section who visited the Purina Research Farm at Gray Summit, Missouri, last Monday, and spent the following day seeing the company's research laboratories and general office. Thousands of farmers from all sections of the United States and many foreign countries visit the Purina farm each year to see results of experiments conducted in livestock and poultry feeding and management. The 738-acre farm is devoted entirely to farm research projects. Pictured above, from left to right, are: First row,
