Fairfield Equity Decrees -- Film No JR.4701 SC State Archives Box FA71 -- none of this equates to the LDS Family History number. I had to guess based on year date when ordering the microfilm for other files I wanted. I don't have this file.

Frame 4 -- it is apparently a single page filing. Dated 23 Feb 1822, Petition for Guardianship.

Henry Macon appointed guardian of his children, Mary A. Macon, Lucary (sic) Macon, Henry J. Macon (sic), Elizabeth Macon, Harriet Macon and Martha Macon under 14, and Benjamin Well Macon and Gideon H. Macon above 14.

That's all the abstract says.

Bob,

Do you have a copy of the equity order for Henry Macon's children dated 1822-ish? It appears that his wife died and she had property in her own right, necessitating Henry Macon's appointment as guardian for his own children? If not, I have the citation & abstract from the "Fairfield Equity Degrees" book that I can send to you.

Ken, Pelham

Thank you for your recent e-mail. I look forward to meeting you personally.

You are quite right that Henry Isham Macon could not have been the Henry Macon, listed in the 1790 Census. He is most likely a brother of Hartwell, Sr., and possibly the father/grandfather of Henry Isham.

We believe this Henry Macon died Ca 1795, but can't locate his will and /or probate papers. Because Gideon Hunt Macon, had a rather large complex(called Macon Manor) in Warren Co., NC, it is possible that when he became ill he, along with Henry Isham, returned to the more "civilized" family location in for recovery. He may well have continued back to VA(Cumberland Co?) where he spent his last days.

Whatever, we do know that 1795 was the approximate time that Henry Isham settled in NC, until marrying and returning to SC after the 1800 Census had been completed, with his family and some slaves his wife had inherited(apparently, illegally transporting them to SC)

There are other references to Macons in the late 1790's, Gideon, Francis & John are cited in 1797 for not working on the roads, or witnessing documents.

Anyway, thanks again for your interest. The data on the Mobley Meeting House was a complete surprise to me.

I've read quite a bit of original records, and the middle initial on these appears quite clearly to me as "J.", but be that as it may, that is an insignificant point -- it doesn't change the title or ownership of the lands in question. So, read "Henry J. Macon" as equivalent to "Henry I. Macon" -- either way, the tracts are in the plat map.

suppose to be a head of household on the 1790 census. Marriage of a male at 16, while not impossible, was quite unusual for the time -- it would be rather unusual for him to be a head of household already. You indicate he wasn't married until 1799 -- which would be even more strange if he is ca 16 years old, unmarried, and a head of household. At 16, even if an orphan, SC law (and pretty much all state law) was that he was a legal minor and would have had a guardian appointed for him. Only by marriage could he be "emancipated" from a guardian at that young an age. Perhaps 2x Henry Macons

-- one older and one younger? But again -- these questions don't materially affect the deed entries -- they are questions you would be interested in as a descendant, but don't apply to the task of tracing land ownership & etc.

Pelham,

You have made my Day!!

With this intelligence, I may well spend much more of my time at the Museum, and will help sort through as many records as I can in my short visit. Did I mention that I worked as a Volunteer, at both the Arizona Historical Society, and the Arizona State Archives; perhaps that background will prove helpful.

By the way, do you have WI-FI available at the Museum? My family intends to keep in touch with Me from Ireland, where they will be vacationing, that way.

Bob,

Been very busy w/work & family, and I haven't had time to get to this.

Suggest you start with my website www.ken-shelton.com.

I've put the Fairfield Co deed map there -- a work in progress.

The Mobley Meeting House site passed through a couple hands, and then ended up sold to a Henry J. Macon. This Henry J. Macon has several deed records and is referenced in others. I've read quite a bit of original records, and the middle initial on these appears quite clearly to me as "J.", but be that as it may, that is an insignificant point -- it doesn't change the title or ownership of the lands in question. So, read "Henry J. Macon" as equivalent to "Henry I. Macon" -- either way, the tracts are in the plat map.

I have some idea where it fits geographically, but the current version on the website has it over in the right margin in the "holding pen". It is a group of tracts that include #s 90 & 91, which are the parts of tract #46 after it was divided out of the Youngue estate & sold separately.

I'll try to get a newer version of the map uploaded over the next few days, but in the meantime, the abstracts in the table provide the high-level info on each tract & the owners, bounders, etc.

It does seem odd to me, though, that "Henry Isham Macon, b. ca1774" is suppose to be a head of household on the 1790 census. Marriage of a male at 16, while not impossible, was quite unusual for the time -- it would be rather unusual for him to be a head of household already. You indicate he wasn't married until 1799 -- which would be even more strange if he is ca 16 years old, unmarried, and a head of household. At 16, even if an orphan, SC law (and pretty much all state law) was that he was a legal minor and would have had a guardian appointed for him. Only by marriage could he be "emancipated" from a guardian at that young an age. Perhaps 2x Henry Macons -- one older and one younger? But again -- these questions don't materially affect the deed entries -- they are questions you would be interested in as a descendant, but don't apply to the task of tracing land ownership & etc.

I'll try to get to my records this weekend -- I've got digital scans for most of the deeds I've referenced, and may have scans of some estate & etc. related to the Macons.

I am not aware of Macon gravesites, but will also have the genealogy volunteers check for cemetery listings on Macons, also any other documents on Macon. -P

Pehlam,

Good to hear from you. Good to hear that there is some info during the 1787-1792 period. Hartwell, Jr eventually moved to Sumter and became Sferriff, and Hotel Owner/Operator. Henry Isham bought his holdings from Hartwell, Sr. with 5000 pounds, sterling. Don,t have any idea where he got that kind of money, unless is was from his Father-In-Law's estate.
Capt. Benjamin Ward left quite and estate.

Have not heard from Ken Shelton, yet, and I could not find his email address on either of your emails. Please provide them again. I'm really excited to have you and Ken available, for consutation and/or local geobgraphic information.
Have you seen any old headstones on the Macon's plats?

I'll close for now, look forward to hearing from you and/or Ken.

I have been scanning the museum's copy of the Fairfield County Court Records approx. 1787-1792 . Hartwell Jr. and Hartwell Sr. figured prominently in the court records for actions and on juries. I don't understand the lingo used and am not sure how to use this information, but will have the book available for you to look at, along with probably a lot more information in the collection. Have you heard from Ken Shelton yet?

I look forward to meeting you.

Pelham,

I anticipate arriving in Spartanburg on the evening Fri., 5/12 @ approx. 7:50 PM. Will try to rent a car and head for Winnsboro Hope to find the Museum Sat Morn., and do as much as I can then.

Gen. details:

The object of my search is: Henry Isham Macon(aka Henry J Macon) I And J are virtually indistinguishable in 19 th Century Longhand.

Henry was born in VA circa 1774, and is believed to have come to SC(Camden area with 1 of 2 Macon families on the 1790(not named as he was only 16, or so) Henry and Hartwell were the heads of households named in 1790. Hartwell was on the 1800 Census, but no Henry Isham who had gone to NC, where he married CA 1799, one Lucy Ward, dau of Capt Benjamin Ward, and Elizabeth Hill. Benj.'s first wife was Martha Lyles aunt of the Lyles family who eventually settled near the Macons in Fairfield District.

Henry Isham died in 1855, in Chester Co. SC, I believe

His dau, Mary Ann married Charles B N Rice of Union Co., and they move to Copiah Co., MS, CA 1837

My tele number is (623) 979 6028

Ken, Pelham

Thank you for your recent e-mail. I look forward to meeting you personally.

You are quite right that Henry Isham Macon could not have been the Henry Macon, listed in the 1790 Census. He is most likely a brother of Hartwell, Sr., and possibly the father/grandfather of Henry Isham. We believe this Henry Macon died Ca 1795, but can't locate his will and /or probate papers. Because Gideon Hunt Macon, had a rather large complex (called Macon Manor) in Warren Co., NC, it is possible that when he became ill he, along with Henry Isham, returned to the more "civilized" family location in for recovery. He may well have continued back to VA (Cumberland Co?) where he spent his last days. Whatever, we do know that 1795 was the approximate time that Henry Isham settled in NC, until marrying and returning to SC after the 1800 Census had been completed, with his family and some slaves his wife had inherited (apparently, illegally transporting them to SC)

There are other references to Macons in the late 1790's, Gideon, Francis & John are cited in 1797 for not working on the roads, or witnessing documents. Anyway, thanks again for your interest. The data on the Mobley Meeting House was a complete surprise to me.
