Hi Eddie,

You probably have a lot of conflicting and various information in addition to mine.

I have researched the Reeley for 38 years and find it most difficult due to repetition of male first names, missing records, dates, etc.

The highlight of my research was discovering that I was born and reared approximately 15 miles West from where my ancestors settled. I was away from Winsford for about 29 years before learning of such a surprise.

My grandfather Reeley left my grandmother with 3 small children around 1928. Therefore, I never knew him or anything about my family except what was told, be it true or otherwise. There was a lot I wanted to know so I began my quest in search of my roots.

I kindly request that you try to determine my line of descent because I'm quite sure I have a lot confused and most likely incorrect in some areas.

Likewise, please send info. on Dunkleys since I am a descendant of them.

I would appreciate it if you can assist me and I look forward to hearing from you.

please do not publish my name, address or phone #.

Sincerely,  
Carol Keeley
