CONFEDERATE PENSION APPLICANTS SCOTT COUNTY, VIRGINIA

Did one of your Scott County, Virginia ancestors fight for the Confederacy?

If so, he or his widow may have made application for pension, and those applications are currently on file at the Virginia State Library and Archives in Richmond. Copies of the applications may be acquired by writing to the V.S.L.A., 1101 Capitol, Richmond, VA 23219.

The State of Virginia enacted its first pension law for Confederate Veterans in 1888. It was restricted to those who were residents of Virginia as of April, 1861, and who had also resided in Virginia for at least five years prior to filing of application. An applicant must have been indigent to the extent that he did not earn more than \$200 per year, and had no property value of more than \$1,000. He must also have been disabled due to wounds or disease suffered while in service.

The following three separate lists contain the names of those who made applications in Scott County. The applications are separated into three series according to the year of the act under which they were granted. The first was in 1888, the second in 1900, and the third was in 1902 extending through 1934. Please note that these lists do not contain the names of those children and sisters who were allowed pensions under the Act of 1915.

Early Patents Outside Borden Tract  
from  
A History of Rockbridge County  
by Oren F. Morton; published in 1920

The following is a list of patents on the waters of the upper James River between the Blue Ridge and the North Mountain, and is carried forward to the year when Botetourt County was organized. No attempt has been made to eliminate those lying within the present border of Augusta or within the present limits of Botetourt. With occasional abbreviation the descriptions are those of the records in The Virginia Land Office. "Forks" is a shortened expression for "Forks of the James," the district between the North River and the main stream. The acreage is followed by the date of the patent.
