

THE GREAT EUREKA!

THE undersigned takes this method of informing the Farmers of York District, that he will have an exhibition, on Yorkville, on the Second Monday in October next, (Court Week) the famous PLOUGH, known as WARLICK'S IMPROVED PATENT, Patented April 3d, 1855. In point of simplicity, durability and good performance, this Plough surpasses any implement of the kind ever before offered to the public. It is adapted to all kinds of shears generally used on plantations—enters the land easily without labor to the Ploughman, and with unusual ease to the draught-animal. The Agriculturists of York District are respectfully invited to examine for themselves.—The recommendations of well-known farmers in Fairfield District, are subjoined.

W. F. WILLIS,
Agent for the State.

I have been using Warlick's Plow, with an iron foot, during the past year, and am of the opinion that it is the best Plow I have ever seen, both for breaking up lands and cultivating crops.

W. R. ROBERTSON.
Winnsboro', 25th Sept., 1856.

I have seen the performance of Warlick's Plow, and for simplicity and utility consider it the very best article of the kind I have yet seen.

JOEL A. BEARD.
Winnsboro', Sept. 27, 1856.

I concur with the above statement of Mr. Joe A. Beard.

R. E. ALLISON.
Sept. 27, 1856.

I have used the above named Plows, and can say unhesitatingly that they are the best implements of the kind with which I am acquainted.

JNO. W. RABB.
Winnsboro', Sept. 27, 1856. 40 2t
