

**FAIRFIELD COUNTY**

**EQUITY COURT RECORDS**

**1807 - 1870**

This book has Genealogical Items found in Fairfield County Equity Court Records. They were filmed by the Genealogical Society, Salt Lake City, Utah, in the Fall of 1961. I have included the Genealogical Society's Film Number and the South Carolina State Archives Box Number. The Frame Number listed with each entry is the number of the frame on the microfilm located at the top of the film and is included to help you locate the location of the various files.

Equity Courts handled matters of land partition, real property controversies, divorces, separations, foreclosure of liens, debt disputes, etc. Most of these cases relate to partition of land and thus give names of heirs. Many times they give additional information such as out of state residence, dates of birth, deaths, marriages, deeds, plats and wills. Frequently they will tell how the land was required and some go back to the original grantor. This book contains mainly information on heirs, dates of birth, deaths, marriages and any information found on out of state residences.

Every effort was made to be as accurate as possible, but many of the records were difficult to read either because of the clarity of the copy or due to the handwriting. Many names were often spelled differently in a bill, sometimes on the same page. If you find your family, you should review the original records to check on accuracy and to see if there is additional information that was not include in the book.
