PREFATORY NOTE.

THIS Index to the Register of Marriages for the Parish of Edinburgh has been printed by the kind permission of Sir Stair Agnew, K.C.B., Registrar-General, and Keeper of the Records of Scotland. The Register, which is preserved in the General Register House, Edinburgh, commences only in 1595, the first entry being on 25th March (then New Year's Day) of that year, and the Index embraces all the entries contained in it, down to and inclusive of the year 1700. The Parish of Edinburgh consisted only of the intra-mural city, the districts outside the walls, such as the West Port and Potterrow, being in the Parish of St. Cuthberts, which adjoined the city on the south, west, and north sides, while on the east was the separate parish of the Canongate. For the period dealt with the Register is contained in three volumes—I. 1595-1649; II. 1649-1694; and III. 1696-1705, and in the two first volumes the entries are of the simplest description—merely the names of the parties married, and, generally, the occupation of the husband, with the date of marriage. In the third volume of the Register, beginning in 1696, the dates of both proclamation and marriage are given, but in a number of instances the latter date is omitted. In these cases "*pro*" before the date indicates that the date given is that of proclamation. After 1670 the name of the officiating minister is sometimes added; and later, after 1696, some information is furnished about the wife's parentage, and sometimes also the husband's. In the Index both husband and wife are separately entered in their alphabetical order, and as each name thus appears twice, the old spelling has been retained where it occurs in the second place. Only under the husband's name, however, is the full information contained in the Register given, and therefore reference should be made for this to the entry under the husband's name.

The Register is continuous from the date of its commencement until 23rd August 1650, when there occurs the following Note:—"Heere we wer constrained to subsist by reasoun of the present troubles. Neither wes there anie mariage solemnized for manie months becaus there wes no

pastours remaining in the citie." The next entry is 11th March 1651. Between 28th September and 24th December 1671 there is a gap by reason of the loss of a folio of the Register; and there is also a hiatus between 13th July 1694 and 15th January 1696.

The few abbreviations used in the Index explain themselves, but one or two imported from the Register call for notice. A *B* before the date may mean Booked, or *Bis*, or Bishop; *Bis*=twice proclaimed; *semel*=one proclamation, or the three proclamations at one time; *bis semel*, twice at the same time; N.K.=North Kirk; N.N.K.=New North Kirk; N.E.=North East; S.W.=South West; T.K.=Tron Kirk; W.K.=West Kirk; W.P.=West Port; and with m.h. added=West Port meeting house. Frequently the names of the ministers are expressed only by their initials, but in most cases their names are filled out in the Index.
