

Withers, Neil & Thompson Families

The Coleman, Feaster & Mobley families who have met me during the Family celebrations in October know of my interest in our contribution to the story of your community. I continue to search out additional remembrances of ties between the Withers, Neil and Thompson families and the families of Blair, Crosbyville and Winnsboro.

Recently friends from our University of South Carolina days reminded me of the special article that ran in the State Newspaper on January 7, 2001. The article chronicles many of our family who came to the University from your area from 1806 through 1970 when my wife and I graduated. A copy of part of the issue is attached.

John Withers, Jr.
