

GENEALOGICAL CHART
OF THE DESCENDANTS OF
PLEASANT BALARD TUCKER, JR.
1860-1943
WITH AN OUTLINE OF HIS
AMERICAN ANCESTORS 1759-1880
BY WILLIAM MORRIS GUTHREY

This chart has two parts. Part I is many of the descendants of John Buchanan of Scotland, to the general Balard Tucker, Jr. This chart was owned by Mallie P. Tucker, Farmington, was compiled by an unknown person about 1931, in an attempt to establish with a William Buchanan, who died in New York. At that time he had leases which were under 99 year leases expired 1924-1931 & there was a lawful descendant that his estate

Part II deals with the descendants & was compiled by W. M. Guthrey & Feb 1969

This chart is a "family tree" with P. B. Tucker Jr., the trunk of the tree, the main limbs, their children & so on. To find the parents of any one person, name & then follow up between the vertical lines. These vertical lines make a "lane" & should not be crossed. Each lane opens upward into the parents, until the name of P. B. Tucker. Each name has a number & letter. The number indicates the generation & the letter indicates the position in his own family. Thus 1a is the first child of any given family; 9b is the ninth child. If anyone died childless or is past age, there is a horizontal line ending that particular line.

The blood relation of P. B. Tucker is carried first, with the name of the female members of the family under their maiden names.

This chart was printed as a single page. Due to this it is possible that some pages will be folded differently than was intended where this happens the page number may be in error. If a name should occur on the page indicated but is not there, look for the name on the page & just after the page number.
